remote controlled socket

efergy®

Switching made simple!

Control an appliance or a group of appliances

Turn power points on and off remotely

Makes reducing your electricity bills easier

Simple installation and set-up

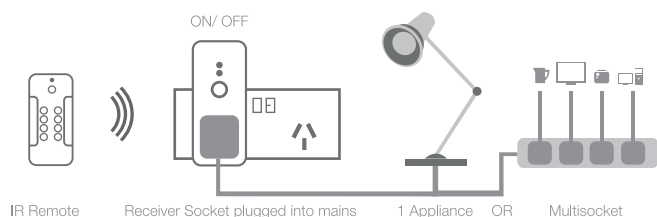

remote controlled socket

Our **remote controlled socket (RCS)** product allows you to turn off appliances from the powerpoint with the touch of a button, helping you to save both electricity and money. Keep the remote control in a handy place so you will remember to use it to maximise your energy savings.

Key features

- Turn power points on and off remotely.
- Makes reducing your electricity bills easier.
- Simple installation and set-up.
- Control an appliance or a group of appliances with one button press.

Switching made easy!

Simply plug the appliance or device you want to remotely operate into the receiver socket and then press the corresponding power button on the remote to operate it from afar. You can connect up to 4 appliances to the **RCS** control and switch individually or 'ALL' with a single press.

What's in the box

- In the box
- 4 x Remote Controlled Socket
 - 1 x Remote Control
 - 2 x AAA 1.5V
 - 1 x Instruction Manual

Easy to install

- Insert the batteries provided into the remote control
- Plug 1 of the sockets into a mains outlet, the LED light will flash red
- Select and press one of the ON switch from A,B,C, and D on the remote control
- The LED will then stop flashing. The socket is now paired to this ON switch on the remote
- You can now remotely control the socket and any appliance connected
- Repeat this process for the other sockets selecting different ON button on the remote for each different socket

Note: When there is a power blackout or the socket is removed from the mains, you will need to repeat the set up process to the socket and the remote.

Technical details

Model Name	Remote Controlled Socket
Model Number	RCS-4-AUS
Voltage	240V~/ 50Hz
Current	10A/ 2400W Max
Learning Code	> 1 million
Remote Frequency	433.92MHz
Remote Range	20m
Power switch	LED
Battery Type	AAA 1.5V
